Kansas City Boat Show January 2014

Tiger Docks™ supplied the National Marine Manufacturers Association with boat docks to help display industry products at Bartle Hall in Kansas City, January 23-26.

In addition to providing docks for all the boat show participants to enjoy at the Kansas City event, Tiger Docks showcased a large U-shaped covered dock along with information on their quality boatlifts and other products.

Tiger's sales team was on hand to help people find the waterfront products to best fit their needs.
