St. Dominic High School
November 2014

Tiger Docks' crew tests out the custom fabrication project created for St. Dominic High School's annual Thanksgiving weekend run.

Along with manufacturing quality boat docks, pump stations, and water features, Tiger Docks can also design and fabricate custom projects to fit a variety of other needs — such as this 12'x15.5' Finish Line banner frame fabricated with light weight aluminum, designed to be easily disassembled and stored for use at the annual St. Dominic High School Joe Haug 5K Run/Walk in O'Fallon, Missouri.
