TIGER DOCKS™ CREATES WAKEBOARDING WATER FEATURES FOR MIDWEST NIGHTFLY

O'Fallon, MO (August 22, 2014) – Tiger Docks™ Waterfront Specialists has expanded their line of manufactured waterfront products to include premium wakeboarding water features in addition to quality boat docks, boat lifts and pump stations.

Demand for Tiger Docks' expertise at nationally-known events such as Midwest NightFLY and Fair Saint Louis has resulted in Tiger Docks creating this exciting state-of-the-art product line of water obstacles for wakeboard parks. Features such as kickers, rooftop sliders, fun box sliders and jumps can be custom-made to fit clients' desires and water park designs.

For Midwest NightFLY's Pro Wakeboard Tour and Extreme Watersports Festival on Saturday, August 23, at Creve Coeur Park, Tiger Docks has manufactured a 75-foot slider with a 32-foot fun box, a 60-foot rooftop slider, and a kicker combination that offers two-way ramps and measures about 30 feet. Midwest NightFLY's event this weekend will showcase the Tiger Docks water features, as well as Tiger Docks' boat docks and Sunstream boat lifts, which will be offered to Midwest NightFLY visitors at discounts up to \$1000.

Like all of their custom-made products, Tiger Docks' water features are professionally designed and manufactured by a team with extensive experience in building floating

structures for all types of marine environments. Features are built with marine-grade 6065 aluminum and HDPE plastic sliding surfaces. Stainless steel hardware and encapsulated floatation assures years of rugged use.

Custom designs guarantee features are as unique as the water parks they enhance. Tiger Docks' CAD designer will draw custom floating features that the client can see in 3-D before they are built.

The core of any water feature is how it floats and reacts when forces are applied to it. Tiger Docks has the experience to get this right.

Headquartered in St. Charles County, Missouri, Tiger Docks currently has customers throughout the United States and in Canada, Grand Cayman, Jamaica, and Korea. Their products and services include floating boat docks, boat hoists, PWC (personal watercraft) lifts, water features for wakeboarders and water skiers, dock accessories, seawall projects, modular steel work barges, and marina development, with manufacturing and retail space in O'Fallon, Missouri, and a retail store in Hawaii Kai Harbor near Honolulu. For more information, please visit Tiger Docks at www.tigerdocks.com or 1613 East Terra Lane in O'Fallon, Missouri, or call 636-272-4300.

###

Founded in 1995, Tiger Waterfront Products, LLC is a manufacturer of its trademarked Tiger Docks™ and conducts business under the Tiger Docks™ name. The company is a floating dock manufacturer and marine construction company serving customers in the United States and abroad. Tiger Docks' efficient design-build system saves their clients time and money. Their recently expanded and upgraded manufacturing facility in O'Fallon, Missouri, USA, includes new custom tooling and welding equipment for increased fabrication capability. The principals of Tiger Docks have over 50 years' combined experience in the planning, design, engineering, and construction of marine projects. Their vision is to use the latest technological advancements in building waterfront environments in which people can work, live and play. They offer "quality products and expert advice," both in partnership with business and military clients and on behalf of families who are creating lasting memories.

The #1 Dock Builder & Supplier of Dock Construction Material in the Mid-West
