Rip-Rap

Protect your Seawall

From being undermined causing pre-mature failure

Let Tiger Docks Rip-Rap
your waterfront

What is Rip-Rap?

Rip-Rap is rock and stone that is used to protect your seawall and waterfront from the damaging effects of erosion and water impact.

Why use Rip-Rap?

Adding Rip-Rap to your waterfront not only protects but also preserves your seawall investment from washing out.

We also Rip-Rap
Creek Beds!
