

## PWC Cable Lift Features

1. **Aluminum and Galvanized Steel Construction**  
Aluminum models offer the right combination of material for a lightweight, yet durable lift with the added strength of steel where it's needed most.
2. **Extra-long, Fully-carpeted Bunks**  
Superior support and protection, as well as aesthetically pleasing
3. **Nylon Pad and Pulley Placement**  
Corrosion resistant, minimal wear on moving parts and increased durability.
4. **Brake Winch**  
Smooth operating which allows for exact positioning of lift platform either up or down.
5. **Galvanized or Plated Hardware**  
Minimizes corrosion for years of low maintenance operation

**Quality Products, Expert Advice.**
